The following resolution was read by title and laid over until later in the day:

HJR02S-1005 by Representative(s) Coleman, Miller; also Senator(s) Entz, Hillman, Isgar--Concerning federal assistance for crop and livestock producers due to drought devastation.

WHEREAS, Snowpack levels and precipitation from rainfall have been far below normal for many western states, including Colorado; and

WHEREAS, Facing one of the most severe droughts in the state's history, all Colorado counties have been designated disaster areas, as dry conditions have greatly reduced the ability of farmers and ranchers to produce their commodities and to provide related services; and

WHEREAS, The lack of moisture will drastically decrease the harvest of many Colorado crops, such as wheat which is expected to yield a crop that is 25-40% of a normal yield; and

WHEREAS, Irrigated farms on average have received only 15% of the water they normally use for crop production; and

WHEREAS, In addition to making it more difficult to raise crops, the extreme dryness also carries with it several secondary concerns, such as the loss of top soil, soil erosion, and an increased possibility of insect infestation; and

WHEREAS, The suffering state of agriculture directly impacts the prospects of raising livestock, by way of low-yielding feeder crops, limited harvest foliage and forage, and the increasing price of hay and other feed; and

WHEREAS, Livestock auction barns in the west are extending their sale hours to accommodate the large numbers of livestock being sold because ranchers cannot afford to feed their herds; and

WHEREAS, There is no insurance available for suffering livestock producers; and

WHEREAS, Livestock and crop prices alike have been low since 1997, giving producers very little financial cushion for hard times; and

WHEREAS, The financial impact caused by the drought could be devastating to Colorado's agricultural community, but also will have an overall effect on the economy of the entire state; and

WHEREAS, An allocation of nearly \$2.5 billion for disaster assistance was originally included in the federal "Farm Security and Rural Investment Act of 2002", commonly known as the "2002 Farm Bill", but this allocation was removed during conference committee deliberations on the bill; and

WHEREAS, Members of Congress subsequently tried to make disaster assistance moneys available by including an allocation in another

1 bill, but unfortunately, this attempt failed as well; now, therefore,

2

3 *Be It Resolved by the House of Representatives of the Sixty-third*
 4 *General Assembly of the State of Colorado, the Senate concurring*
 5 *herein:*

6

7 That we, the members of the General Assembly, strongly urge the
 8 United States Congress:

9

10 (1) To examine and adopt measures to allow producers of
 11 agricultural commodities to receive short-term assistance in coping with
 12 and responding to the drought conditions, such as the following:

13

14 (a) Implementing tax code modifications that enable producers
 15 who are forced to sell livestock during periods of drought to receive
 16 additional time to reinvest the sale proceeds before having to pay capital
 17 gains tax on the earnings, thus allowing the producer to wait until the
 18 drought conditions have subsided before reinvesting;

19

20 (b) Providing crop and livestock producers with direct emergency
 21 assistance to be delivered through existing Farm Service Agency
 22 channels;

23

24 (2) To reexamine how drought relief assistance is provided and
 25 consider elevating the manner in which it is provided to place drought
 26 assistance on the same level of assistance that is provided to other natural
 27 disasters such as wildfires, hurricanes, and floods; and

28

29 (3) To examine the feasibility of prioritizing water allocations.

30

31 *Be It Further Resolved, That copies of this Joint Resolution be*
 32 *sent to the President of the United States, the Majority Leader of the*
 33 *United States Senate, the Minority Leader of the United States Senate, the*
 34 *Majority Leader of the United States House of Representatives, the*
 35 *Minority Leader of the United States House of Representatives, and to*

10 **INTRODUCTION OF RESOLUTIONS**

11
12 The following resolutions were read by title and laid over until later in the
13 day:

14
15 **HR02S-1002** by Representative(s) Fairbank, Alexander, Fritz, Hoppe,
16 Rippy, White--Concerning the mitigation of the threat of
17 wildfires in national forests through the removal of dead
18 fuel.

19
20 WHEREAS, The current condition of Colorado's national forest
21 lands poses public health and safety risks to citizens of this state in the
22 areas of air quality, water quality and quantity, and potential loss of
23 human life and damage to property and threatens damage to municipal
24 infrastructure; and

25
26 WHEREAS, The USDA Forest Service has allowed an unnatural
27 volume of dead fuels to build up within national forest lands that poses
28 an immediate threat to nearly 20 million forested acres in Colorado; and

29
30 WHEREAS, The number of forested acres in Colorado treated by
31 the USDA Forest Service has been grossly insufficient to mitigate the
32 threat of unnatural, catastrophic wildfires; and

33
34 WHEREAS, Insect and disease infestations have impacted over
35 500,000 acres throughout the state, and these conditions have exacerbated
36 the already dangerous wildfire hazard; and

37
38 WHEREAS, Major wildfires that occur in Colorado's backcountry
39 decrease wildlife habitat, including that of federally-listed species, and
40 threaten to denude critical watersheds surrounding high-mountain
41 reservoirs; and

42
43 WHEREAS, The wildfires in Colorado have burned 357,000 acres
44 in 25 counties, cost \$110 million, received 14 FEMA declarations, and
45 burned over 1,000 structures; now, therefore,

46
47 *Be It Resolved by the House of Representatives of the Sixty-third*
48 *General Assembly of the State of Colorado:*

49
50 1. That we, the members of the House of Representatives, hereby
51 recognize the dangerous conditions of Colorado's forests and urge
52 aggressive action by the USDA Forest Service to mitigate the threat of
53 wildfire on national forest lands in the State of Colorado through the
54 removal of vast accumulations of dead fuels.

55
56 2. That we urge federal action on a fire strategy to

1 comprehensively reduce the risk of catastrophic wildfire and improve the
2 overall condition of Colorado's forests.

3
4 3. That we support all possible and necessary steps in order for
5 projects to control various insect- and disease-impacted forests in
6 Colorado.

7
8 4. That we support utilizing an appropriate mix of fire-prevention
9 activities and management practices including forest restoration,
10 treatment of at-risk forest stands, grazing, selective tree removal, and
11 other measures to control insects and pathogens, removal of excessive
12 dead ground fuels, and small-scale prescribed burns.

13
14 5. That we strongly encourage the Congress of the United States
15 to expeditiously pass legislation, maintain sufficient National Fire Plan
16 funding, and encourage refinements of current regulations to address the
17 gridlock issue obstructing active land management by the USDA Forest
18 Service and other federal land management agencies.

19
20 *Be It Further Resolved*, That copies of this Resolution be sent to
21 the USDA Forest Service and to each member of the Colorado
22 Congressional Delegation.

23
24
25 **HJR02S-1006** by Representative(s) Spradley; also Senator(s) Hillman--
26 Concerning the recognition of the ability of the state
27 inmate population to provide disaster relief.

28
29 WHEREAS, Colorado is in the midst of a widespread and lengthy
30 drought, has experienced throughout this summer a plague of dangerous
31 and destructive wildfires in various locations, and may be in danger of
32 experiencing calamitous flash-flooding; and

33
34 WHEREAS, The extraordinary challenges of these and other
35 natural disasters demand creative and innovative approaches to prevent
36 and mitigate the destruction caused by these and other natural and
37 man-made forces; and

38
39 WHEREAS, For decades the Colorado Department of Corrections
40 has supervised the provision of valuable services to the state and its
41 communities by hundreds of inmates; and

42
43 WHEREAS, The Colorado inmate population can provide reliable
44 and needed assistance to combat the onslaught of these disasters and to
45 mitigate their destruction and stands ready as a flexible, trained, and
46 capable workforce for the state; and

47
48 WHEREAS, The Colorado Department of Corrections can easily
49 and quickly train and mobilize hundreds of inmates to perform various
50 critical tasks, including: Forest and vegetation management; mitigation of
51 burned areas; flood control; reforestation and reseedling; trail and road
52 rebuilding; and various reclamation projects; now, therefore,

53
54 *Be It Resolved by the House of Representatives of the Sixty-third*
55 *General Assembly of the State of Colorado, the Senate concurring*
56 *herein:*

1 (1) That, although the state faces a severe budget crisis and must
2 be fiscally responsible, we, the members the Sixty-third General
3 Assembly, recognize that assistance for communities that have been
4 devastated by wildfires is of paramount importance and needs to be
5 accomplished in the most fiscally responsible manner possible, and we
6 support the low-cost alternative of using the Colorado inmate population
7 to assist communities in reestablishing their homes and businesses; and
8

9 (2) That we, the members the Sixty-third General Assembly,
10 believe the use of inmates for mitigation and rehabilitation is a quicker
11 and more cost-effective alternative for the citizens of Colorado in the
12 current emergencies than the extensive long-term training needed to allow
13 inmates to directly fight forest fires; and
14

15 (3) That we, the members the Sixty-third General Assembly
16 hereby encourage all relevant agencies of federal, state, and local
17 government to consider that the Colorado inmate population may be
18 easily trained and mobilized on request to perform numerous assignments
19 in preparing for and responding to various disasters; and
20

21 (4) That the Colorado Department of Corrections can provide the
22 necessary training and supervision for those inmates to carry out those
23 critical assignments.
24

25 *Be It Further Resolved*, That copies of this Joint Resolution be
26 sent to each member of the state's congressional delegation, to the
27 President of the United States, to the Governor, to the Executive Director
28 of the Department of Corrections, and to any statewide organizations
29 representing counties and municipalities.

 31 **INTRODUCTION OF RESOLUTION**

32
 33 The following resolution was read by title and laid over until later in the
 34 day:

35
 36 **HJR02S-1007** by Representative(s) Hefley, Alexander, Johnson,
 37 Madden, Snook, Witwer; also Senator(s) Fitz-Gerald,
 38 Isgar, Tupa--Concerning implementation of the National
 39 Fire Plan on federal lands.

40
 41 WHEREAS, The paramount goal of fire policy must be the
 42 protection of lives, homes, and communities; and

43
 44 WHEREAS, 1.3 million Colorado citizens reside in and adjacent
 45 to forested areas with high wildfire risk, and the number living in a
 46 wildland-urban interface is predicted to increase substantially over the
 47 next few decades; and

48
 49 WHEREAS, Hundreds of firefighters heroically put their lives at
 50 risk to save homes and communities every year; and

51
 52 WHEREAS, Intermixed land ownership means that Colorado's
 53 federal land managers, state land managers, and private property owners
 54 are all responsible for the protection of private property; and
 55

1 WHEREAS, USDA Forest Service research has demonstrated that
2 fuel reduction within the immediate vicinity of structures and the use of
3 nonflammable building material are the most important factors
4 determining whether a structure will survive a wildfire; and
5

6 WHEREAS, A primary purpose of the National Fire Plan is to
7 reduce the risk of severe wildfires in the wildland-urban interface where
8 communities adjoin or intermingle with federal public lands, and
9 substantial funds have been appropriated to the federal land management
10 agencies to implement this plan; and
11

12 WHEREAS, At a 1998 Colorado forest conference sponsored by
13 Governor Romer and the USDA Forest Service, consensus developed
14 between the environmental community, the timber industry, and the
15 USDA Forest Service to focus on thinning and prescribed fire in the
16 wildland-urban interface red zone; and
17

18 WHEREAS, In January 2002, the General Accounting Office
19 concluded that USDA Forest Service accounting and tracking is so poor
20 that there is no way to determine whether the USDA Forest Service had
21 appropriately spent over \$750 million allocated to thinning and prescribed
22 fire in the wildland-urban interface red zone; and
23

24 WHEREAS, The USDA Forest Service has aggressively fought
25 efforts to require 60% of the National Fire Plan funds to be spent on fuel
26 reduction projects that will provide the greatest protection to the at-risk
27 communities; and
28

29 WHEREAS, The federal land managers in Colorado are using
30 National Fire Plan moneys in some instances to assist in the completion
31 of projects that do little to reduce fuels in the wildland-urban interface;
32 and
33

34 WHEREAS, Every dollar of National Fire Plan funds that is not
35 spent to protect the lives, homes, and property of at-risk communities is
36 a dollar wasted; and
37

38 WHEREAS, Colorado Congressmen Joel Hefley and Mark Udall
39 have recognized this problem and introduced a bipartisan resolution,
40 H.R. 3948, to improve implementation of the National Fire Plan by
41 reducing the build-up of fuels in the wildland-urban interface by
42 establishing an interagency council to coordinate implementation of the
43 National Fire Plan, directing the council to define consent criteria to
44 identify the communities within the wildland-urban interface that are
45 most at risk from severe wildfires, requiring that fuel reduction be
46 accomplished in at-risk communities before other fuel reduction efforts
47 are undertaken in the state, and directing the council to determine the
48 most effective and appropriate methods to utilize fuel removed pursuant
49 to the National Fire Plan; now, therefore,
50

51 *Be It Resolved by the House of Representatives of the Sixty-third*
52 *General Assembly of the State of Colorado, the Senate concurring*
53 *herein:*
54

55 That the General Assembly endorses H.R. 3948 to improve the
56 implementation of the National Fire Plan by reducing fuels in the

1 wildland-urban interface, and urges the Colorado Congressional
2 Delegation to support and cosponsor this resolution.

3

4 *Be It Further Resolved*, That copies of this Joint Resolution be
5 sent to the President of the United States, the Secretary of the Interior, the
6 Secretary of Agriculture, and each member of the Colorado
7 Congressional Delegation.
