Re: Air Pollution Control Division Request for Fee Increase

Dear Mr. Martin,

EnCana Oil & Gas (USA) Inc. ("EnCana") is committed to environmental leadership and stewardship, ethical business conduct and community responsibility. In our opinion, a key part of being an environmental leader is to support our government partners, such as the Colorado Department of Public Health and Environment ("CDPHE"), whenever possible. EnCana is committed to being a productive partner in the regulatory process in Colorado.

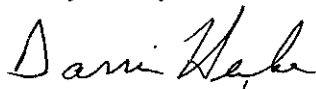

We greatly appreciate CDPHE's efforts in reaching out to stakeholders before moving forward with significant policy and legislative matters, including most recently the department's efforts to provide information to and ask for input from industry regarding its request to increase air emission and permitting fees.

EnCana hereby supports CDPHE's legislative proposal to increase the air emission and permitting fees in 2008. CDPHE staff has provided industry an adequate analysis of and justification for the proposed fee increase, including increased demands on services, loss of federal funding, and increasing responsibilities. We commend CDPHE for being so helpful in answering certain questions about the proposal.

EnCana supports strong state and local regulatory programs that are effective and efficient, and recognizes that adequately funded and well staffed regulatory programs allow agencies to continue to implement innovative and productive programs, retain and invest in strong and talented employees, who bring great expertise to stakeholder and other communicative processes.

Again, we appreciate CDPHE's efforts to work with us and look forward to continuing our partnership with the agency into the future. Should you have any questions or if we can be of additional assistance as this specific process moves forward, please do not hesitate to contact Mr. Lem Smith at (720) 876-5153 or iem.smith@encana.com.

Thank you for your continued leadership and commitment to the State of Colorado.

Darrin Henke
Vice President, South Rockies Business Unit
