TITLE: CONCERNING THE EXERCISE OF THE POWER OF EMINENT DOMAIN BY THE REGIONAL TRANSPORTATION DISTRICT.

Summary of Legislation

This bill places restrictions on the transfer or sale of private property acquired through eminent domain by the Regional Transportation District (RTD). Beginning July 1, 2008, any property acquired without consent of the original owner, may not be transferred unless the RTD first:

- ▶ determines within 10 years of possession that the property is no longer necessary for the original acquisition purpose; and
- ▶ offers to sell the property to the original owner at a price not to exceed the original price per square foot.

The bill was postponed indefinitely by the Senate Local Government Committee on April 24, 2008

Background

Section 38-1-101, C.R.S., prohibits the taking of private property for transfer to a private entity for the purpose of economic development or enhancement of tax revenue. Private property may otherwise be taken solely for the purpose of furthering a public use.

Assessment

Before the RTD transfers or sells unused property it acquired by a condemnation action, the original owner must first be offered the property at the original acquisition price. Since the bill addresses property the district has not developed for a public use, transfer to the original owner at the original acquisition price will have no effect on the district's revenue or expenditures. For this reason, the bill is assessed as having no fiscal impact.
