

The Mission of the Women's Lobby of Colorado:

The Women's Lobby of Colorado seeks to provide better opportunities for women in our state by ensuring that public policies reflect gender equity and justice.

By consistently maintaining a daily lobbying presence at Colorado's Capitol, our all volunteer organization has kept the needs of women front and center in our state's public policy debates for more than a decade.

Primary issues:

- **Women's Economic Justice**
- **Women's health and reproductive rights**
- **Anti-discrimination**
- **Equal Opportunity**

The Women's Lobby of Colorado maintains an active presence at the State Capitol.

We promote social, economic, and political opportunities for all women in our state through a professional lobbying presence at the Colorado State Capitol.

For more than a decade, the Women's Lobby of Colorado has kept the needs of women front and center in our state's public policy debates by consistently maintaining a daily presence at the State Legislature.

The Women's Lobby of Colorado improves circumstances for all women.

The circumstances and conditions for all women in Colorado are greatly improved through active participation and well-informed representation at the State Capitol.

We seek to provide better opportunities for women in our state by ensuring that public policies reflect gender equity and justice.

The Women's Lobby of Colorado provides informed representation of Women's needs and Values.

While other organizations focus on specific issues, the Women's Lobby is the only coalition in Colorado dedicated to promoting a broad range of women's issues through responsive lobbying.

Before we speak, we listen. We bring together people and organizations working on issues related to gender. From there, we identify where support is needed and what remains to be addressed politically. Our legislative efforts are based on what women from all walks of life define as critical.
