

**SEND FORM WITH PERSON WHENEVER TRANSFERRED OR DISCHARGED**

**SIGNATURE OF PATIENT, AGENT, GUARDIAN, OR PROXY BY STATUTE (MANDATORY)**

Significant thought has been given to the desired scope of end-of-life treatment and these instructions. Preferences have been discussed and expressed to a health care professional. This document reflects those treatment preferences which may also be documented in a MDPOA, CPR Directive, Living Will, or other advance directive, (attached if available). To the extent that my prior advance directives do not conflict with these *Medical Orders for Scope of Treatment*, my prior advance directives shall remain in full force and effect.

*(If signed by surrogate, preferences expressed must reflect patient's wishes as best understood by surrogate.)*

**DIRECTIONS FOR HEALTH CARE PROFESSIONALS**

**COMPLETING THESE MEDICAL ORDERS**

- Must be completed by a health care professional based on patient preferences and medical indications.
- These *Medical Orders* must be signed by a physician, advanced practice nurse, or physician assistant to be valid. *Physician Assistants must include physician name and contact information.*
- Verbal orders are acceptable with follow-up signature by physician or advanced practice nurse in accordance with facility/community policy.
- Original form strongly encouraged. Photocopy, fax, and electronic image of signed *MOST* forms are legal and valid.

**USING THESE MEDICAL ORDERS**

- Any section of these *Medical Orders* not completed implies full treatment for that section.
- A semi-automatic external defibrillator (AED) should not be used on a person who has chosen "Do Not Attempt Resuscitation."
- Oral fluids and nutrition must always be offered if medically feasible.
- When comfort cannot be achieved in the current setting, the person, including someone with "Comfort Measures Only," should be transferred to a setting able to provide comfort (e.g., pinning of a hip fracture).
- A person who chooses "Comfort Measures Only" or "Limited Additional Interventions," should not be entered into a trauma system. *EMS should contact Medical Control for further orders or direction regarding transfers.*
- IV medication to enhance comfort may be appropriate for a person who has chosen "Comfort Measures Only."
- Treatment of dehydration is a measure that may prolong life. A person who desires IV fluids should indicate "Limited Interventions" or "Full Treatment."
- **Proxy by statute is a decision maker selected through a proxy process according to C.R.S. 15-18.5-103(6), who may not decline artificial nutrition/hydration (ANH) without an attending physician and a second physician trained in neurology certifying that provision of ANH would merely prolong the act of dying and is unlikely to result in the restoration of the patient to independent neurological functioning.**

**REVIEWING THESE MEDICAL ORDERS**

- These *Medical Orders* should be reviewed periodically, if necessary, when:
  - The person is transferred from one care setting or care level to another, or
  - There is a substantial change in the person's health status, or
  - The person's treatment preferences change.
  - Contact information changes.

**REVIEW OF THIS MOST FORM**
