

This Bill in no way precludes individuals from using the services of those outside the modern/conventional funeral establishment. Individuals can choose to forgo the services of a Mortuary Science Practitioner, Funeral Director, Cremationist or Embalmer. If this is really true, please consider adding a sentence similar to the one below:

This Bill in no way precludes any individual's right to choose, for reasons of religious or personal belief, to utilize the assistance, whether paid or volunteer, of any alternative service provider not described and defined within this Bill, or to forgo the assistance of any service provider at all, for any reason the individual deems valid.

Respectfully,

*Denise Henasey
