Description:

The Colorado Water Conservation Board (CWCB) consists of 15 members. The executive director of the Department of Natural Resources is a voting member ex officio. The Attorney General, State Engineer, Director of the Division of Wildlife, Commissioner of Agriculture or designee, and Director of the CWCB are nonvoting members ex officio. The nine remaining members shall be qualified electors of the state, well versed in water matters, and shall be appointed by the governor, with the consent of the senate, for terms of three years. The appointments shall be made in such a manner that the terms of three members shall expire on February 12 of each year. Any vacancy in the Governor's appointments that occurs while the Senate is in session must be confirmed by the Senate before the person can take office on the board. Vacancies to be filled while the Senate is not in session will not be considered permanent appointments until the Senate confirms the appointee.

The Governor's appointees shall be chosen geographically as follows: Four from the western slope and five from the eastern slope; but, of the five members to be appointed from the eastern slope, one shall be from the Rio Grande drainage basin, one from the North Platte drainage basin, one from the Arkansas drainage basin, one from the South Platte drainage basin outside of the city and county of Denver, and one from the City and County of Denver and intimately familiar with its water problems; and that of the four members to be appointed from the western slope, one shall be from the Yampa-White drainage basin, one from the main Colorado drainage basin, one from the Gunnison-Uncompahgre drainage basin, and one from the San Miguel-Dolores-San Juan drainage basins.

To the extent possible, appointments to the board shall include persons representing the following areas of experience and expertise: water resource management; water project financing; engineering, planning, and development of water projects; water law; and irrigated farming or ranching. Members of the board shall be residents of the geographic area they represent. No more than five appointees to the board shall be members of the same political party. Members may not vote by proxy.

The board is responsible for promoting the conservation of the state's water by fostering and encouraging irrigation districts, water users' associations, conservancy districts, drainage districts, mutual reservoir companies, mutual irrigation companies, grazing districts, and other agencies; assisting such agencies in their financing, gathering data and information for the greater utilization of the state's water; cooperating with the federal government on water conservation and flood control projects; and other related duties. The complete duties of the board are specified in section 37-60-106, C.R.S.
