

We live in a small area of unincorporated arapahoe county in hd 41 and senate 28. There are 10 precincts in our area. in 1 house and 2 senate districts. We are asking to be kept whole and for the sole precinct in senate 29 to be with the other 9 in 28. This area is called 4 square mile.

This area is right by denver and aurora. We have nothing in common with Denver but we do with aurora since its in the same county and as well school district. We would therefore prefer to stay with the status quo in aurora.

There are 2 other pockets of arapahoe county by us; holly hills which is also unincorporated and the city of glendale. We would ask that though they need to be put with denver since they are surrounded by denver that you do not split them up since they are separate and distinct communities like us.

These 3 little pockets of arapahoe are their own communities and have been for decades. We have to fight for everything we get as the county loves to dump on us so hope you can appreciate the request of these 3 little areas since we share the same brand new library; that you do not split us up in any way and that you as much as possible keep us with the same house, the same senate and with arapahoe county. If you have to put 4 square mile with denver we would want to be the majority; not the minority.

Thank you.

JM Fay

4 square mile resident in hd 41 and senate 28 / 29.
