

Colorado's Digital Learning Now! Report Card as Compared to the "Ideal State"

Source: <http://digitallearningnow.com/nations-report-card/>

SPOTLIGHT

[view all](#)

Colorado has the opportunity to lead the nation in transforming education for the digital age. Colorado was an early authorizer of virtual charter schools. Providers focused on at-risk students and out-of-school youth, which produced low completion rates that now threaten the future of digital learning. Conversely, students enrolled full-time starting in 9th grade have an [Learn More](#).
