outdoor recreation entities and functions under the department of natural resources. In so doing, the existing wildlife commission was merged with the existing board of parks and outdoor recreation to form the 16-member parks and wildlife board (board).

Effective July 1, 2012, the bill replaces the board with the new parks and wildlife commission (commission). The commission is comprised of 11 voting members and 2 nonvoting ex officio members (the executive director of the department and the commissioner of the department of agriculture). The voting members are appointed by the governor with the consent of the senate and must represent various geographical regions in the state and certain areas of interest or knowledge. Initial term lengths are staggered to reduce the impact to the board that results from member turnover.

The commission is required to submit a 5-year strategic plan to specified committees of reference. Components of the plan are specified.
