

Table 1. Comparison of UI Rates for New Employers		
Options	Current Law	HB12-1127
FY 2011-12	Maximum of 1.7% or computed rate	Not Effective
FY 2012-13 - UI Trust Fund Solvent (LCS Forecast)	4.34 %	Maximum of 1.7% or computed rate
2013 - UI Trust Fund in Deficit	Maximum of 1.7% or computed rate	Maximum of 1.7% or computed rate

Background

The UI program provides temporary and partial wage replacement to workers who have become unemployed through no fault of their own. The program is administered by the Unemployment Compensation Section in the Division of Employment and Training within the Colorado Department of Labor and Employment (CDLE). HB09-1363 established the section as an enterprise. As a result, most of the revenue collected for UI is not subject to the TABOR limit.

UI benefits for the first 26 weeks of unemployment are paid from the fund, which is funded through state UI premiums and surcharges, and federal UI taxes paid by Colorado employers. The fund became insolvent in January 2010 due to sustained levels of high unemployment as a result of the 2007-2009 recession. To continue to meet UI benefit payment obligations, the state began borrowing from the federal Unemployment Trust Fund in mid-January 2010. According to the Legislative Council December 2011 Forecast (forecast), the fund is expected to be solvent with a small reserve ratio on June 30, 2012. If this does occur, employers will begin paying increased rates January 1, 2013.

State Revenue

This bill is expected to reduce revenue to the UI Trust Fund by \$5.6 million in FY 2012-13, \$9.0 million in FY 2013-14 and \$9.8 million in FY 2014-15. Based on the forecast, new employers will be charged a rate of 4.34 percent beginning January 1, 2013. For FY 2012-13 the rate will only apply for six months so the revenue at 4.34 percent would be \$13.6 million. Under this bill new employers will pay a rate of 1.7 percent or a higher computed rate, for total revenue of \$7.9 million in FY 2012-13. Table 2 shows revenues assuming the UI Trust Fund is solvent under current law and the bill.

Table 2. Revenues Under HB12-1127 (\$ millions)				
Fiscal Year	Wages	Current Law (4.34%)	HB12-1127 (1.7%)	Difference
2012-13	\$471.6*	\$13.6	\$7.9	(\$5.6)
2013-14	508.5	21.5	12.5	(9.0)
2014-15	562.9	23.6	13.8	(9.8)
