Dear members of Capitol Building Advisory Committee,

The board of Directors of Armenians of Colorado has so far contacted five landscape companies for the purpose of getting bids for the Memorial Garden project. So far, we have received one bid, had two companies decline to bid and one was unavailable. The fifth one is in the process of putting a bid together.

The AOC is willing and able to start the project as soon as the bids are reviewed and approved . However to do that we need clarification on the following:

- 1) Are there limitations on the days that the contractor can work on the Garden.
- 2) Does the CBA Committee need to approve the landscape company selected by our organization.
- 3) When is the State planning to put the sod in the general area.
- 4) Is there a specific timeline for completing the work?

Thank you for your attention!

Best Regards,

Sona
