Recommendations for Approval:

- The subcommittee recommends that the **Allen True Murals be cleaned and necessary conservation measures taken**. A hired professional will be determined through a bid process. Once bids are received, a funding source will be determined. Any use of the Gold Fund will require approval from the Capitol Building Advisory Committee.

- The subcommittee recommends that a **plan for the continued maintenance of the Capitol art collection** be established and incorporated into the Criteria and Procedures. The following procedures are recommended:

Interior Collection. The artwork, frames, and busts should be cleaned two times a year by a hired professional and with assistance from CBAC staff. When paintings are removed for building maintenance or construction, the back of the painting should be cleaned under professional supervision.

Exterior Collection. The memorials on the Capitol Grounds and in Lincoln Park should be cleaned and refurbished by a hired professional at most every 5 years. The memorials must be washed and waxed on a rotating schedule by Capitol Complex.
