

What is Colorado PTAC?

Colorado PTAC is a non-profit 501(c)3 corporation funded by federal, state and local grant money and in-kind support. The PTAC partners with universities, community colleges, local economic development corporations, small business development centers and other business programs or local institutions delivering services statewide.

The Colorado PTAC is staffed with counselors experienced in government contracting and provides a wide range of services. Our PTAC counselors have backgrounds in government acquisitions and all receive ongoing training to keep pace with continually evolving acquisition procedures and policies.

All of our PTAC staff are members of the National Association of Procurement Technical Assistance Centers (APTAC), which provides a network allowing any PTAC counselor almost instant access to the expertise and experience of over 500 colleagues, as well as real-time information from government agencies regarding new requirements and initiatives.
