Dear Senators and Representatives,

In a phone call this morning with a prospective hemp farmer in Yuma County I was informed that his banker has told the farmer he cannot, under any circumstance, have industrial hemp involved in his farming operations or it would put his entire production loan at the bank at risk of termination. This farmer banks with First Farm Bank, located in Greeley, CO.

There is clearly a problem within the banking community that we need to resolve in an expedited and prudent manner.

Thanks for your attention to this matter.

Best regards,

Michael Bowman
Wray, CO
