

Vaccinations can be harmful and there is no guarantee that your body will accept the unregulated cocktail. The body is created to accept germs & diseases through the separate systems of the immune system. It is however not created to accept a disease directly to the blood stream by forcing it through to bypass the biggest system we have, our skin.

are the only ones that

Parents will be there when things don't go right. Let them make the choice.

→ Bevin Duke, Denver Citizen

Putting harmful substances in my body is not something I will do ~~nor~~ nor will I expect others to do it. If health issues issue do you want people to live off the healthcare system b/c they can't protect themselves. Health is a choice being healthy is my only choice.
