

Hello,

My name is Linda Barefoot and I am the Senior Regional Director of State Government Affairs with Purdue Pharma L.P. Purdue Pharma manufactures and distributes controlled and non-controlled prescription medication and over the counter products. We are in support of appropriately designed State Prescription Monitoring Programs and believe that Colorado HB 14-1283 is an example of such a program. We would like to go on record expressing our support of this proposed PDMP enhancement legislation for Colorado.

Thank You,

Linda
