SUBJECT: Commission Overview and Charge

This memorandum provides the following information regarding the Early Childhood and School Readiness Legislative Commission (ECSRLC):

- background and membership of the commission;
- the commission's statutory charge; and
- ECSRLC proposed legislation from 2009 to 2014.

Background and Commission Membership

The Early Childhood and School Readiness Commission was created through the passage of House Bill 09-1343 and operated during the 2009 and 2011 interim sessions. During this time, the commission included ten legislative members and was required to meet at least six times per year to study issues concerning early childhood and school readiness. The commission repealed on July 1, 2012.

During the 2013 legislative session, the commission was re-created and the word "Legislative" was added to its name. The commission's membership was reduced to six legislative members with three members from each chamber representing the Education and the Health and Human Services committees of the General Assembly. The commission does not have non-legislative members.

The ECSRLC is chaired by a House member in even-numbered years and by a Senate member in odd-numbered years. For the 2015 interim session, the commission's membership includes: Senator Beth Martinez Humenik, Chair; Representative Brittany Pettersen, Vice-chair; Senator Vicki Marble; Senator Michael Merrifield; Representative Jonathan Singer; and Representative James Wilson. Staff support to the commission for the 2015 interim session is provided by Legislative Council Staff.

Statutory Charge

Pursuant to state law, the ECSRLC must meet at least four times per year to study issues concerning early childhood and school readiness. Topics to be studied include: health care, mental health, parental involvement, family support, child care, and early learning. The commission is required to solicit input from the public, especially from those who have expertise in early childhood and school readiness issues. The commission is also required to meet with the Early Childhood Leadership Commission, which is a group focused on improving outcomes for young children ages birth to eight, to discuss policy concerning early childhood and school readiness.

Statutory Authority

The commission is authorized to recommend legislation deemed necessary by the ECSRLC. Legislation recommended by the ECSRLC is treated as interim committee legislation for the purposes of legislative deadlines imposed by the General Assembly rules. The commission is authorized to recommend up to five bills for Legislative Council approval. The commission must report its recommendations to the Legislative Council by November 15, 2015.

In odd-numbered years, the Legislative Council must review interim committee recommendations by November 15. Requests for bills to be drafted must be completed by October 2, 2015, and the commission must vote by November 2, 2015, to determine which bill drafts will be forwarded to the Legislative Council for approval.

Commission bills that are approved by the Legislative Council do not count against a member's five-bill limit for the regular legislative session. Bills recommended by the commission that are not approved by the Legislative Council may be introduced in the regular session, but such bills will count against a member's five-bill limit. Interim committee bills must have prime sponsors prior to consideration by the Legislative Council.

ECSRLC Proposed Legislation - 2009 to 2014

From the 2009 interim to the 2014 interim, the ECSRLC proposed 12 bills that were approved by the Legislative Council. Of the 12 bills, 6 became law. Table 1 provides the ECSRLC legislation approved by the Legislative Council by year, a brief summary of each bill, and each bill's disposition.

The bill authorizes the State Board of Human Services, by rule, to identify specific circumstances in which the authorization notice term may be less than the full period of eligibility. A county may reduce the number of families served by the CCAP if necessary to avoid overspending its child care block grant allocation for a fiscal year. The bill would have required the State Board of Education (SBE) to adopt rules for the grant program. School districts with a CPP-authorized preschool program would have been eligible to participate in the program. The bill would have provided money for quality improvement and incentive funding for high-quality CPP classrooms. The bill was postponed indefinitely on April 11, 2014.	No
SB 14-006	Early Childhood Educator Development Scholarship	The bill would have expanded the Early Childhood Educator Development Scholarship Program within the CDE.
