

February 2015

To Whom It May Concern:

I am writing in regards to the Pharmacy law that now denies Colorado Acupuncturists the right to procure injectable substances, which are in their scope of practice to use.

I have been a patient at the Southwest Acupuncture College Clinic for 4 years. I have been receiving Acu-point Injections as part of my course of treatment. I have not had any adverse reactions and have experienced relief of my symptoms from this treatment.

I am asking that you do not deny me the right of access to MY CHOICE OF HEALTHCARE, which is in the scope of practice for Acupuncturists in Colorado, by denying them the ability to procure the substances to utilize it.

Since no other professionals in Colorado are trained to do Acu-point injections, I not only cannot seek my preferred healthcare provider, I cannot access this relief at all.

Since being added to the scope of practice in 1999 there have been no complaints filed regarding injuries from injection therapy being administered by an Acupuncturist.

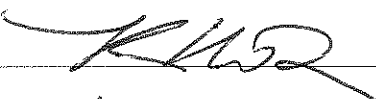

Please allow me access to my chosen provider and the type of healthcare that provides relief for me.

Below is a direct account of the benefits I have received from Acu-point injections.

alot Less pain in The C-6
area

Thank you for your consideration in this matter.

Sincerely,

Signed:

Please allow me access to my chosen provider and the type of healthcare that provides relief for me.

Below is a direct account of the benefits I have received from Acu-point injections.

One main Reason I've sought care from SWAC is these injections to relieve me of severe pain.

Please reauthorize rights to acupuncturists in CO to do injection treatment.

Thank you for your consideration in this matter.

Sincerely,

Injection therapy has helped me to
lead tennis elbow. Had I not been
able to receive injection therapy I would
not be able to play the sports I love.

Thank you for your consideration in this matter.
