RE: Senate Bill 15-030

January 10, 2015

To Whom It May Concern:

I am writing this letter in support of Senate Bill 15-030. Young women in bondage to sexual exploitation are encouraged by men and women who only see profit in their bodies. These young women are vulnerable because they may have no ability to escape (no access to resources or money) are controlled; Forced to do drugs and drink alcohol by gorilla pimps and traffickers. They keep them addicted in order to hold them hostage and keep them isolated.

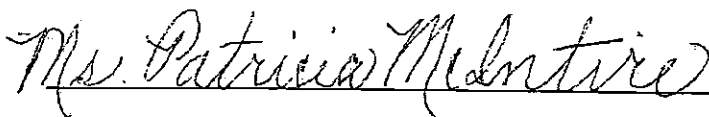

Speaking from experience, my daughter, Ms. Billie McIntire hated every minute that she spent in the commercial sex industry and surviving human trafficking, but she was trapped. In order to perform, she became an alcoholic and suffered from anorexia and bulimia. What a price women pay when their bodies are sold! What about the leaches who take their pay or do not pay them at all? The violence they endure is beyond words.

Do not penalize women but assist them out of this ugly, sex trafficking world.

"I think I would be dead if it weren't for your help, mom"

Thank you for your time.

Sincerely,

Ms. Patricia McIntire
