

**Denver Basin Legislation
SB-010**

**Postpone Modified
Ground Water Modeling
for the Denver Basin**

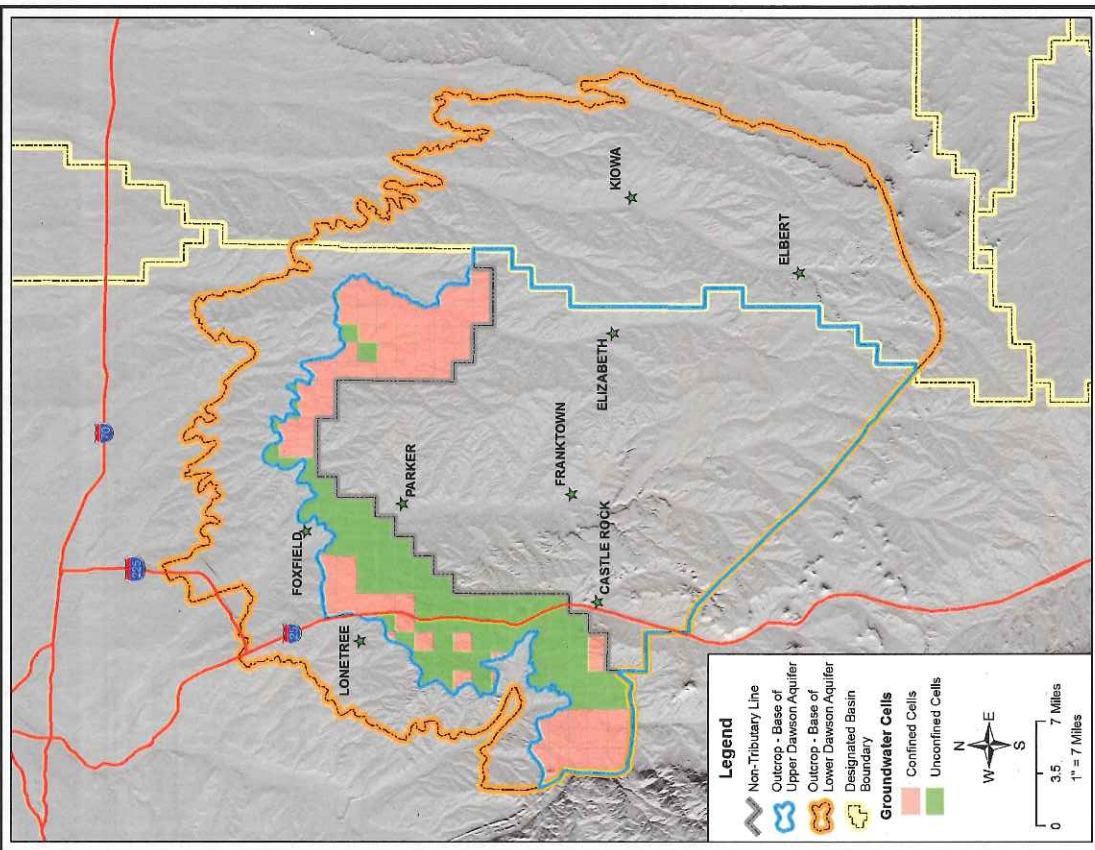

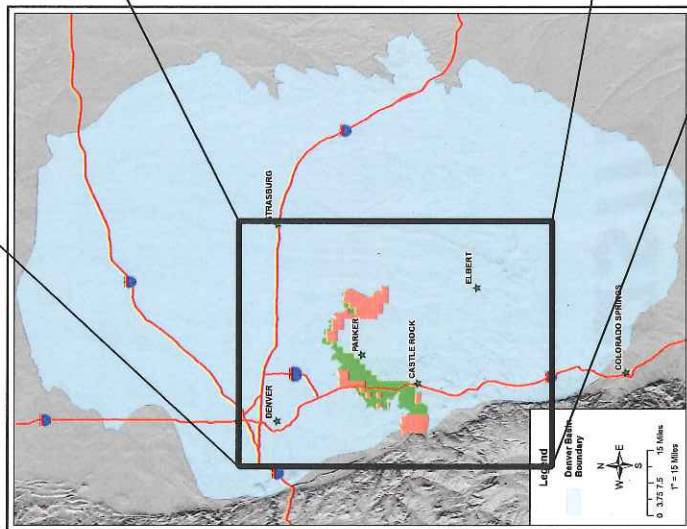

Denver Basin

Denver Basin

Dawson Aquifer

In Summary

- Current law requires new model by July 1, 2015
 - No model is available, costly development
 - New model requirement needs to be delayed
- Alternate proposal (SB-10)
 - Permanently remove the requirement for a new model,
 - Model development and continual monitoring of actual aquifer conditions will be costly
 - Limited area of applicability for new model and diminished reliance on the resource in that area
 - Increased accuracy may not be realized
