

Speaker Ferrandino's Quote at the October 15th Interim Committee Bill Approval Meeting:

- "And just one thing to note, just process-wise, and it's always frustrated me with this process, is that interim committee bills don't get fiscal notes. And I think that maybe next session we should deal with so that we put fiscal notes on these so we know. So...there are several bills in this entire package that I have the same question as you so Mr. Minority Leader that we, unfortunately, don't have the answers to, I think, in a lot of ways."
