

Why we need this bill – in pictures:

Productivity and Hourly Earnings, 1973 to 2014

Growth, not shared

Wages for ordinary workers have in fact been stagnant since the 1970s, very much including the Reagan years, with the only major break during part of the Clinton boom. ...Wages of production and nonsupervisory workers in 2014 dollars; we have never gotten back to 1973 levels
