HB15-1001: Early Childhood Educator Development Scholarships

Oppose

Position: Oppose

More tax money (don't buy the "gifts, grants and donations canard - those of you who have been to POL training have seen how that works...) for the department of human services to fund the personal education of early childhood education professionals, enabling them to obtain a post-secondary credential in childhood education. Paying for someone else's credentials is YOUR responsibility since it's for the children? No, it's not.

This legislation opposes the principles of:

- Personal Responsibility
- Free Markets
- Limited Government
- Fiscal Responsibility

Position: Oppose

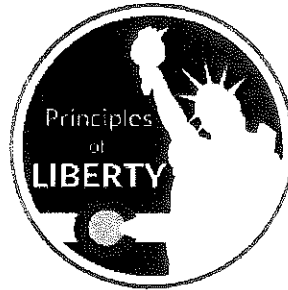

This is a renewed fight from last year. POL was somewhat torn last year, but after reflection, and after reading this bill, we think that this is just overkill by "law and order" types who push the fear that without government regulation and oversight, blood will run in the streets. Don't buy it.

This legislation opposes the principles of:

- Individual Liberty
- Personal Responsibility
- Property Rights
- Free Markets
- Limited Government

Principles of Liberty Colorado is a coalition of persons dedicated to liberty and government's role in protecting and preserving that liberty. Our goal is to help influence political policy in Colorado by focusing upon the core principles of good government that our nation was founded upon and comparing the actions of our state legislators with principles of good government. The primary tools for accomplishing this goal are our weekly Legislative Analysis Report of bills being run in the State House and Senate in the Colorado Legislature and our annual review/grades of legislator voting records.

"The natural progress of things is for liberty to yield, and government to gain ground."
~Thomas Jefferson
