

**UPDATED SUMMARY  
SENATE BILL 15-010**

**First Regular Session - Seventieth Colorado General Assembly**

---

*This summary applies to the reengrossed version of this bill as introduced in the second house. It does not reflect any amendments that may be subsequently adopted. This summary reflects only the main points of the legislation.*

**Water Resources Review Committee.** Current law specifies that, beginning July 1, 2015, augmentation requirements for the withdrawal of water from the Dawson aquifer must be based on actual aquifer conditions. The bill repeals this requirement, thereby continuing current law, which requires replacement of actual out-of-priority depletions to the stream; except that the replacement of post-pumping depletions is required only if necessary to compensate for injury.
