

**UPDATED SUMMARY  
HOUSE BILL 15-1295**

**First Regular Session - Seventieth Colorado General Assembly**

---

*This summary applies to the reengrossed version of this bill as introduced in the second house. It does not reflect any amendments that may be subsequently adopted. This summary reflects only the main points of the legislation.*

Current law authorizes the university of Colorado (CU) to conduct electrical and plumbing inspections for its buildings on the Boulder campus. The bill extends this authorization to the Denver campus and the health sciences campus and to buildings on property owned by the Boulder, Denver, or health sciences campuses but excludes contiguous buildings at the Auraria higher education center.

Current law also requires CU or any local government to start or cease inspections as of July 1 of any year and requires them to notify the state electrical board or the state plumbing board of its intentions by October 1 of the preceding calendar year. The bill allows CU to start its inspections on July 1, 2015, without having given the required notice.
