HOUSE  
Amended 2nd Reading  
April 17, 2015

Broomfield, Denver, Douglas, El Paso, and Jefferson counties must initially prove that the applicant is operationally and financially fit to provide the proposed taxicab service to create a rebuttable presumption that there is a public need for the taxicab service. If a party opposing the application then presents sufficient evidence to overcome the presumption, the commission shall deny the application for a certificate.

The bill simplifies the process by no longer requiring the commission to consider whether there is a public need for the service; instead it considers only whether the applicant is operationally and financially fit to provide the proposed taxicab service. Instead of creating a presumption that another party may rebut with evidence that there is not a public need for the proposed taxicab service, the commission's finding that an applicant is operationally and financially fit to provide the proposed taxicab service requires the commission to issue a certificate to the applicant.
