Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://www.leg.state.co.us/billsummaries>.)

Currently the retail marijuana code requires that retail marijuana be tested. The bill requires similar testing for medical marijuana. The bill states that testing will not begin until a marijuana laboratory testing reference library is created and licensees are set up for proficiency standards and tests. The bill creates a medical marijuana testing facility license.
