Every MILES Makes A Difference

MILES ZX40S *Advanced Design*

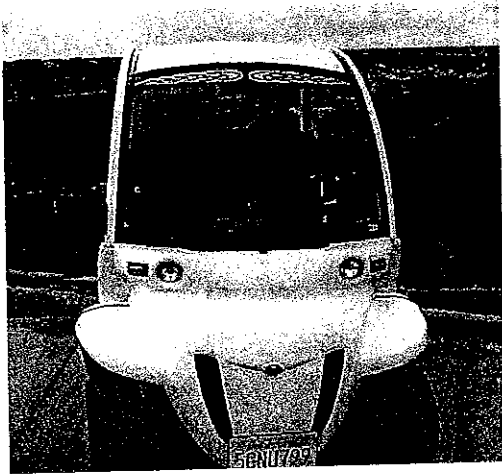

With AC Motor
Technology

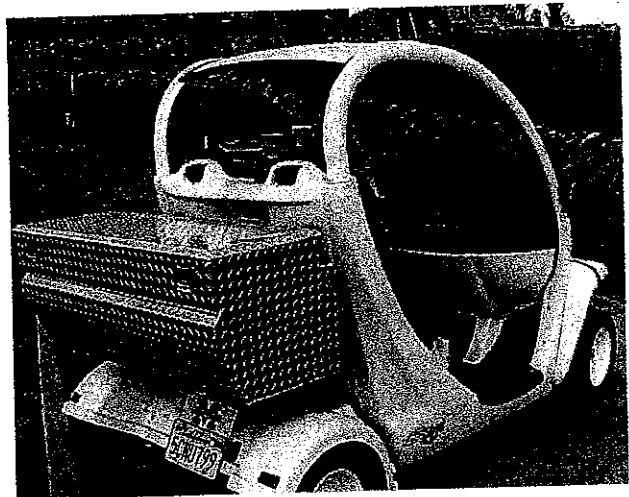

Zero Emissions. No Gas Required. The ZX40S *Advanced Design*, with its enclosed interior and hatchback features, is the most dynamic all electric, low speed passenger car on the market – A multipurpose, green solution for safely transporting people and sensitive equipment.

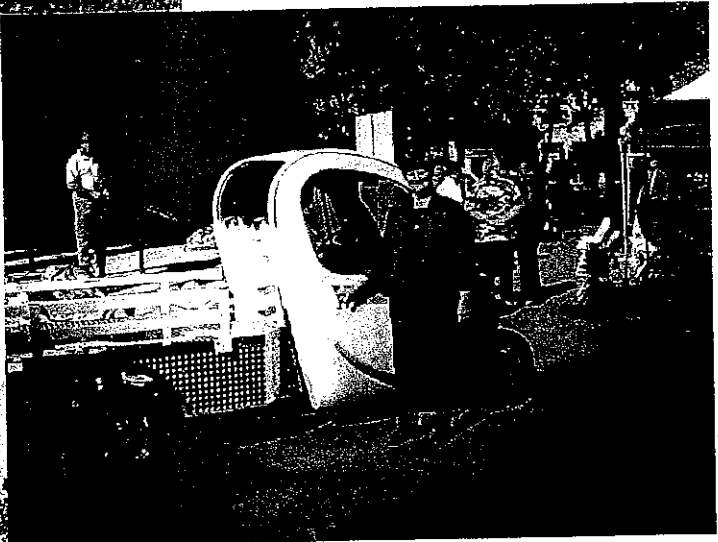

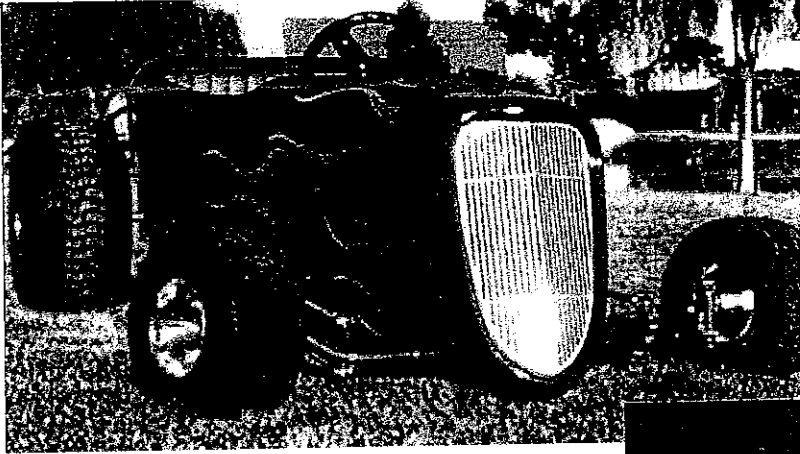

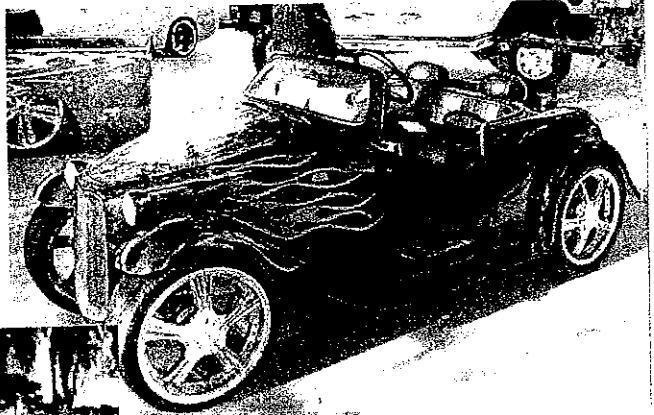

APPENDIX F

PHOTOGRAPHS

"The GEM (Global Electric Motorcar) is manufactured in Fargo, North Dakota and sold by Chrysler dealers. It is a street legal electric vehicle with 3-point seat belts, safety glass windshield, head and tail lights, turn signals, four wheel hydraulic brakes, independent front suspension, 72-volt motor, six 12-volt batteries, approximate driving range is 30 miles on one charge."

ZAP!

XEBRA™ PK

Ride the Future.

**100%
Electric!**

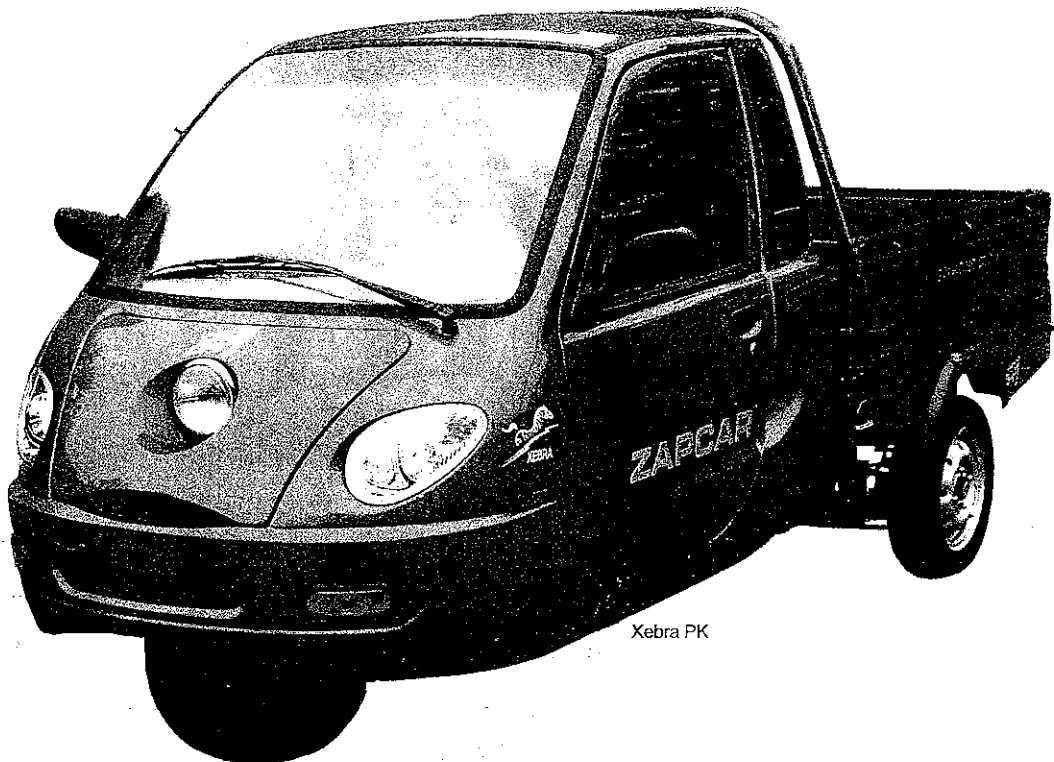

Innovation

The ZAP® XEBRA™ is the offspring of more than three decades of thought and evolution. This car was created as a breed by itself. Because the use and purpose of electric vehicles is different than gas cars, the wheel did indeed need to be reinvented.

Riding a Xebra

Prepare yourself for a whole new driving experience. XEBRAS™ do not attempt to behave like other vehicles. They are unique. They are quiet, yet agile. Imagine a world filled with silent XEBRAS™ instead of noisy internal combustion engines.

Xebra PK

XEBRA Vitals

- *Length:* 10' 9"
- *Width:* 4' 6"
- *Height:* 5' 1"
- *Weight:* ~1603 lbs
- *Charger:* 110v on board
- *Payload:* 500 lbs.
- *Classification:* Zero Emission Vehicle
- *Options:/Accessories:* Leather Seats, Cooling Fan, 12 Volt Meter, 450 Amp Controller, Solar Chargers

- ✓ **At about 3 cents per mile**
- ✓ **Speeds Up to 40 MPH**
- ✓ **Range Up to 40 Miles**
- ✓ **Only City-Class Truck in Production**
- ✓ **Right & Left Side Steering Options Available**
- ✓ **Two Seater**

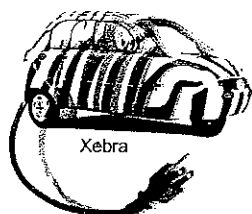

No Tailpipe, just plug it in!

Even after counting emissions from electric generating plants XEBRAS™ produce 98% fewer pollutants than gas cars.

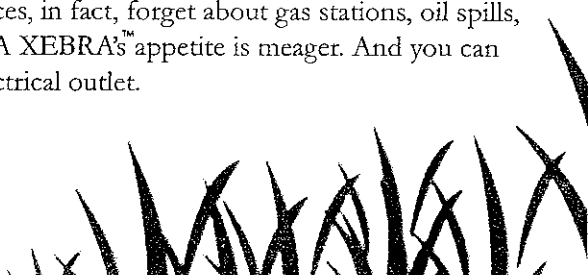

It's Electric!

Laugh at high oil prices, in fact, forget about gas stations, oil spills, and fumes- forever! A XEBRA's™ appetite is meager. And you can recharge it at any electrical outlet.

Be Unique. Expect To Be Noticed.

Recharge Your
GEM Vehicles
In Just 60
Minutes!

 Global Electric Motorcars
A Chrysler Company

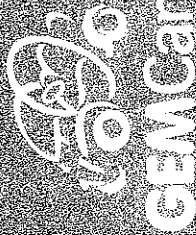

Your GEM Vehicle Fleet Just Got More Efficient.

Introducing the New Fast Charger Options for the GEM Line of Vehicles.

*Charging time depends on charger and battery type.

Global Electric Motorscars believes in customer satisfaction and not only has your service needs in mind, but your time and convenience as well.

With GEMCare, you can choose from 12- or 24-month coverage options. GEMCare also includes towing, roadside assistance, and more. Choose your year, mileage, and service options. Optional GEMCare extended service choices for 12- or 24-months are also available through authorized GEM dealerships across the country.

Your warranty program includes protection against major mechanical breakdowns, 24-hour roadside assistance and towing services. Global Electric Motorscars will repair or replace, at its option, all GEM parts found faulty in material and/or workmanship, under normal use, maintenance and service, with genuine GEM parts without charge for parts and labor by any authorized GEM dealer or service provider during the warranty coverage period. In addition, 24-hour roadside assistance will provide you with towing services if you should ever have a flat tire or need additional support.
