(6) (a) In any prosecution for DUI or DWAI, the defendant's BAC at the time of the commission of the alleged offense or within a reasonable time thereafter gives rise to the following presumptions or inferences:

(I) If at such time the defendant's BAC was 0.05 or less, it shall be presumed that the defendant was not under the influence of alcohol and that the defendant's ability to operate a MOTOR vehicle OR VEHICLE was not impaired by the consumption of alcohol.

(II) If at such time the defendant's BAC was in excess of 0.05 but less than 0.08, such fact gives rise to the permissible inference that the defendant's ability to operate a MOTOR vehicle OR VEHICLE was impaired by the consumption of alcohol, and such fact may also be considered with other competent evidence in determining whether or not the defendant was under the influence of alcohol.

(b) The limitations of this subsection (6) shall not be construed as limiting the introduction, reception, or consideration of any other competent evidence bearing upon the question of whether or not the defendant was under the influence of alcohol or whether or not the defendant's ability to operate a MOTOR vehicle OR VEHICLE was impaired by the consumption of alcohol.

(i) (I) Following the lawful contact with a person who has been driving a MOTOR vehicle OR VEHICLE and when a law enforcement officer reasonably suspects that a person was driving a MOTOR vehicle OR VEHICLE while under the influence of or while impaired by alcohol, the law enforcement officer may conduct a preliminary screening test using a device approved by the executive director of the department of public

1 health and environment after first advising the driver that the driver may
2 either refuse or agree to provide a sample of the driver's breath for such
3 preliminary test; except that, if the driver is under twenty-one years of
4 age, the law enforcement officer may, after providing such advisement to
5 the person, conduct such preliminary screening test if the officer
6 reasonably suspects that the person has consumed any alcohol.

7 (II) The results of this preliminary screening test may be used by
8 a law enforcement officer in determining whether probable cause exists
9 to believe such person was driving a MOTOR vehicle OR VEHICLE in
10 violation of this section and whether to administer a test pursuant to
11 section 42-4-1301.1 (2).
