**Bill Summary**

*(Note: This summary applies to this bill as introduced and does not necessarily reflect any amendments that may be subsequently adopted.)*

Authorizes the collection of precipitation from up to 3,000 square feet of a roof of a building that is primarily used as a residence and is not connected to a domestic water system serving more than 3 single-family dwellings, if the water thus collected is used for:

- !     Fire protection;
- !     The watering of poultry, domestic animals, and livestock on farms and ranches;

Shading denotes HOUSE amendment. Double underlining denotes SENATE amendment.  
*Capital letters indicate new material to be added to existing statute.*  
*Dashes through the words indicate deletions from existing statute.*

- ! The irrigation of not over one acre of gardens and lawns; or
- ! Ordinary household purposes.

Requires a person who wishes to collect precipitation from a rooftop to file an application in the form and manner specified by the state engineer and pay a fee in an amount to be determined by the state engineer.

For a person using an exempt well, limits rooftop precipitation collection to the same dwellings served by the well and subject to any limitations on use contained in the well permit.
