Kori -

It is my understanding that the CDC has specifically requested that a representative from the Governor's Office appointed to the Task Force to oversee cause marketing for the Dome remediation. With this in mind, Todd Saliman, OSPB Director, has contacted the Governor's Office and I have been designated as the representative from the Governor's Office. I would ask that the Capital Development Committee consider me as interested in participating in the Task Force.

If you have any issues with this, or require additional information, or if other representatives from the Governor's Office express interest for this position, please let me know.

Thanks very much.

Subject: Fund-raising Task Force

Hello.

At its September 8, 2010, meeting the Capital Development Committee (CDC) discussed the creation of a task force to oversee cause marketing advertisements using the Share in the Care logo or trademark. The committee voted to appoint three members at its upcoming October 25, 2010, meeting, including one member to be designated by the Governor's office, one member of the Capitol Building Advisory Committee, and one member of the CDC. Furthermore, the CDC directed that those interested in participating on the task force should indicate their interest before the next meeting of the committee. ***If you are interested in participating on the task force to oversee cause marketing advertisements, please respond to this e-mail or contact Senator Bacon directly.***

Thank you,

Kori Donaldson
