SENATE  
3rd Reading Unamended  
April 22, 2008

SENATE  
Amended 2nd Reading  
April 18, 2008

Directs the chief information officer of the office of information technology, in consultation with the public utilities commission (commission) and the governor's innovation council, to identify broadband telecommunications service areas and information service areas within Colorado and to develop a map of such areas, with the goal of using the map to help plan the deployment of broadband service to unserved areas of the state. Uses the map as the basis for an inventory of existing and potential service areas and makes a report available to the general assembly containing this information.

Requires the chief information officer to hold at least 4 public meetings and consider comments submitted by members of the public in preparing the inventory. Allows the chief information officer to solicit gifts, grants, and donations to pay for the meetings and the preparation of the inventory and report.

Exempts from disclosure under the Colorado open records act any proprietary information submitted by telecommunications providers and information service providers in connection with the inventory.

Clarifies that the existing high cost support mechanism administered by the commission is established only for the financial support of providing basic local exchange service in rural areas. Authorizes the commission to draw upon the high cost administration fund to help defray the cost of preparing the inventory if the cost of preparing the inventory exceeds the amount available from gifts, grants, and donations as of September 1, 2008.

8 OF BROADBAND SERVICE IN CONNECTION WITH THE BROADBAND  
9 INVENTORY AUTHORIZED BY SECTION 24-37.5-106 (3).

10           SECTION 3. 40-15-208 (1) and (2) (a), Colorado Revised  
11 Statutes, are amended to read:

12           40-15-208. High cost support mechanism - Colorado high cost  
13 administration fund - creation - purpose - operation. (1) All moneys  
14 remaining in the Colorado high cost fund as of July 1, 1998, and not  
15 previously encumbered by the commission for payment to providers of

17 administration fund created in subsection (3) of this section.

18           (2) (a) (I) The commission is hereby authorized to establish a  
19 mechanism for the support of universal service, also referred to in this  
20 section as the "high cost support mechanism", which shall operate in  
21 accordance with rules adopted by the commission. The PRIMARY purpose  
22 of the high cost support mechanism is to provide financial assistance to  
23 local exchange providers to help make basic local exchange service  
24 affordable and allow such providers to be fully reimbursed for the  
25 difference between the reasonable costs incurred in making basic service  
26 available to their customers within a rural, high cost geographic support  
27 area and the price charged for such service, after taking into account any

1 amounts received by such providers under price support mechanisms  
2 established by the federal government and by this state. THE HIGH COST  
3 SUPPORT MECHANISM MAY ALSO BE USED, TO THE EXTENT NECESSARY, TO  
4 SUPPLEMENT ANY GIFTS, GRANTS, AND DONATIONS RECEIVED PURSUANT TO  
5 SECTION 24-37.5-106 (3) (f), C.R.S., IN ASSISTING THE OFFICE OF  
6 INFORMATION TECHNOLOGY IN PREPARING THE STATEWIDE INVENTORY OF  
7 AVAILABLE BROADBAND SERVICES AS PROVIDED IN SECTION 24-37.5-106  
8 (3), C.R.S.

9 (II) The commission shall ensure that no local exchange provider  
10 is receiving funds from this or any other source that, together with local  
11 exchange service revenues, exceeds the cost of providing local exchange  
12 service to customers of such provider. The high cost support mechanism  
13 shall be supported and distributed equitably and on a nondiscriminatory,  
14 competitively neutral basis through a rate element assessed on all  
15 telecommunications service providers in Colorado.

16 **SECTION 4. Appropriation.** In addition to any other  
17 appropriation, there is hereby appropriated, out of any moneys in the  
18 broadband inventory fund created in section 24-37.5-106 (3) (f) (I),  
19 Colorado Revised Statutes, not otherwise appropriated, to the office of the  
20 governor, for allocation to the office of information technology, to create  
21 an inventory of broadband service areas within the state, for the fiscal year  
22 beginning July 1, 2008, the sum of twenty-one thousand dollars (\$21,000)  
23 and 0.1 FTE, or so much thereof as may be necessary, for the  
24 implementation of this act.

25 **SECTION 5. Safety clause.** The general assembly hereby finds,  
26 determines, and declares that this act is necessary for the immediate  
27 preservation of the public peace, health, and safety.
