HOUSE
Amended 2nd Reading
April 2, 2009

Requires the governor's energy office (office) to administer the loan program. Requires the state board of education, in consultation with the office, to promulgate rules establishing policies and procedures for the administration of the program. Requires the office to review each loan application, evaluate each project associated with a loan application, and make recommendations to the state treasurer as to whether to award a loan and the amount of the loan.

Creates the renewable energy and energy efficiency for schools loan program administration fund (fund) in the state treasury. Specifies that the moneys in the fund shall be used to pay for costs incurred by the office in administering the program but shall not be included in any loan made to a qualified school district.

Authorizes the state treasurer to make loans and determine the interest rates and repayment terms of loans under the program. Authorizes the state treasurer to withhold amounts from a school district's payments of the state's share of the school district's total program received in accordance with the "Public School Finance Act of 1994" in the event that the school district fails to make timely payments against a loan received from the program.

Allows a qualified school district that receives a loan from the loan program for a renewable energy project to use the moneys received to finance the acquisition of a renewable energy project. Requires a qualified school district that receives a loan from the loan program for a renewable energy project to contact its local electrical utility and allow the utility, at the discretion of the utility, to place a representative of the utility on the school district's renewable energy project team.
