SENATE  
Amended 3rd Reading  
March 26, 2009

As of January 1, 2010, moves Weld and Larimer counties from the basic emissions program of the automobile inspection and readjustment program (AIR program), established pursuant to the federal "Clean Air Act", to the enhanced emissions program of the AIR program. Modifies the geographical boundaries of those parts of Weld and Larimer counties that are excluded from the emissions program area. Expands the program area to include all previously excluded portions of Adams and Arapahoe counties. Requires the air quality control commission in the department of public health and environment to review the boundaries of the program area.

Ensures that the diesel is inspection program area remains unaltered.

Excludes a collector's item motor vehicle with a model year of 1975 or earlier from the emissions testing process. Correspondingly, changes the definition of "collector's item" from a motor vehicle that is at least 25 years old to a vehicle that is either:

- ! A model year of 1975 or earlier; or
- ! A model year of 1976 or later that is registered as a collector's item on or before September 1, 2009.

Prevents a motor vehicle with a model year of 1976 or later that is registered as a collector's item on or before September 1, 2009, from being registered as a collector's item after sale or transfer to a new owner.
