for 5 degree programs before January 1, 2011. After completion of the first 5 articulation agreements, the council will develop additional articulation agreements.

Section 2. Under current law, each institution must ensure that no less than two-thirds of the students enrolled at each campus of the institution are in-state students. The bill applies the two-thirds in-state student requirement to the institution as a whole rather than each campus. Under current law, foreign students are included as out-of-state students for purposes of calculating the ratio between in-state and out-of-state students. The bill exempts institutions that meet certain criteria from the requirement that they include foreign students in the calculations for in-state and out-of-state students.

Sections 3 and 4. Where, under current law, the department of higher education sets financial aid eligibility requirements, the bill gives institutions that authority. The bill removes the requirement that an institution that is an enterprise dedicate a percentage of its revenues to need-based financial aid if the institution increases tuition.

Sections 5-7. Where institutions are currently subject to the state fiscal rules, the bill allows the institutions to adopt their own rules.

Section 8. Where institutions are currently subject to information technology rules promulgated by the state chief information security officer, the bill allows the institutions to adopt their own rules.

Section 9. Where institutions are required to provide various state entities with financial data, the bill permits an institution to provide only audited financial statements in those cases.

Sections 10-14. Under current law, institutions must submit capital construction projects to the Colorado commission on higher education (CCHE) for approval and comply with other statutory provisions regarding capital construction projects. The bill allows the institutions to notify CCHE and the capital development committee of its projects.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 hereby finds that:

4 (a) The on-going economic challenges facing the state continue
5 to force drastic cuts in all areas of the state budget, especially in funding
6 for higher education;

7 (b) A vibrant, effective, high-quality state higher education system

1 that is both accessible and affordable is crucial to maintaining economic
2 development within the state and to ensuring that the citizens of the state
3 have the educational opportunities they need to succeed in a highly
4 competitive global economy;

5 (c) The Colorado commission on higher education last completed
6 a master plan for the state system of higher education in 2002-03. Since
7 that time, in addition to drastic economic changes in the state and
8 resulting budget cuts, there have been significant changes in state
9 education policy, including:

10 (I) Direction from the general assembly in the "Preschool to
11 Postsecondary Education Alignment Act", part 10 of article 7 of title 22,
12 Colorado Revised Statutes, to fully align public education from
13 elementary and secondary education through undergraduate and graduate
14 higher education; and

15 (II) Enactment of Senate Bill 04-189, which created the "College
16 Opportunity Fund Act", article 18 of title 23, Colorado Revised Statutes,
17 and fee-for-service contracts, the combination of which shifts higher
18 education funding from a formula-based funding system to funding based
19 on student enrollment and the purchase of higher education services
20 provided by state institutions of higher education;

21 (d) In recognition of the significant policy and fiscal changes that
22 have seriously impacted the state higher education system, the Colorado
23 commission on higher education must work with the governing boards
24 and chief executive officers of each of the state institutions of higher
25 education to rewrite the master plan for the state system of higher
26 education;

27 (e) In rewriting the master plan, the Colorado commission on

1 higher education should also take into account the final report of the
2 higher education strategic planning steering committee appointed by the
3 governor to address state higher education needs, governance, and
4 funding and improving student access and success. The steering
5 committee anticipates completing the final report by November 4, 2010.

6 (f) The master plan must address:

7 (I) The state's workforce and economic development needs and
8 how those needs may be met by the system of higher education;

9 (II) The challenges facing the state system, including but not
10 limited to improving accessibility and affordability for all students
11 graduating from high school, decreasing the geographic disparity of
12 higher education attainment in the state, and closing the educational
13 achievement gap;

14 (III) The current state funding crisis and its impact on the state
15 higher education system with regard to funding for capital construction,
16 the level of systemic funding, and the level of institutional funding; and

17 (IV) Alignment of the state higher education system with the
18 system of elementary and secondary education in the state;

19 (g) The master plan must also include accountability measures that
20 will demonstrate that students receive high-value and high-quality
21 educational services that are provided with the efficiency necessary to
22 reduce attrition and increase retention and enable students to attain their
23 degrees in a reasonable period of time, and to help ensure students
24 achieve post-graduation success.

25 (2) The general assembly finds, therefore, that, due to the
26 immediate and daunting economic challenges facing the state institutions
27 of higher education, it is in the best interests of the state to immediately

1 grant to the institutions greater flexibility in setting tuition rates and with
2 regard to institutional operations. Further, the implementation of a new
3 master plan for the statewide system of higher education will preserve the
4 vitality and quality of the public higher education system in Colorado into
5 the future to ensure that Colorado's citizens, through their access to a
6 world-class higher education system, can develop the knowledge and
7 skills necessary to ensure their personal success and the success of the
8 state as a whole.

9 SECTION 2. 23-1-108, Colorado Revised Statutes, is amended
10 BY THE ADDITION OF A NEW SUBSECTION to read:
