TITLE: CONCERNING THE REGULATION OF CONVEYANCES.

Summary of Legislation

This bill makes modifications to the Elevator and Escalator Certification Act. Specifically, this bill does the following:

- ▶ exempts stairway chair lifts from regulation;
- ▶ requires that contractors from other states carry the same insurance coverage as contractors certified in this state;
- ▶ requires a contractor to report dangerous conditions to either the state administrator or a local jurisdiction, as appropriate;
- ▶ requires that newly installed or altered conveyances be inspected and approved prior to operation; and
- ▶ authorizes the continued use of private residence conveyances installed prior to 2008 in buildings that are not a single family residence.

The bill takes effect August 11, 2010, assuming the General Assembly adjourns May 12, 2010, as scheduled and no referendum petition is filed.

Assessment

HB 10-1231 has no effect on state revenues or expenditures. It requires that the Department of Labor and Employment adopt rules to correspond with these changes; however, this can be accomplished within the existing departmental process for adopting rules and does not require additional resources. For these reasons, the bill is assessed as having no fiscal impact.
