standardized set of payment rules and claim edits to be used by payers and health care providers in Colorado. The task force is to track the progress of the national initiative, known as the American society for quality initiative (ASQ initiative), in the development of a national uniform, standardized set of rules and edits and avoid duplication of conflict with the ASQ initiative.

The task force is to develop a base set of rules and edits using existing national industry sources and work with the ASQ initiative to develop a complete set of uniform, standardized payment rules and claim edits applicable to all types of professional services.

The task force is required to report its recommendations by December 31, 2012, including recommendations to:

- ! Adopt any standardized rules and edits developed by the ASQ initiative if appropriate for Colorado, for implementation by commercial payers by the end of 2012, and by nonprofit payers by the end of 2013; or
- ! Adopt the rules and edits sets established by the task force if the ASQ initiative has not come to consensus.

If the task force is required to develop its own standard rules and edits, the task force is to do so by December 31, 2012, and payers are to implement the standard rules and edits by the end of 2013 for commercial payers and by the end of 2014 for nonprofit payers.

The bill precludes the use of any proprietary or other claims edits to modify the payment of the charges for covered services once the standard payment rules and claim edits are implemented.

Contractual provisions between contracting persons or entities and health care providers regarding actual contracted reimbursement rates for procedures and other contractual arrangements negotiated by the parties would be preserved under the bill.

The bill reorganizes provisions pertaining to health care contracts, without making any substantive changes to those provisions.
