health agency or district public health agency (agency), provided certain procedures are followed. Prior to approving a program, the board shall consult with interested stakeholders from the community and shall address with them certain issues, including the scope of the program, any concerns of law enforcement, and the parameters of the program. The bill lists several components that proposed programs shall have the ability to provide. If an agency contracts with a nonprofit organization to operate a program, the contract will be subject to annual review and reauthorization.
