The bill:

- ! Authorizes the high-performance transportation enterprise to enter into a transportation demand management contract with the department of transportation to relieve traffic congestion during peak travel times in a specified portion of the interstate 70 mountain corridor by providing and operating reversible highway lanes within that portion of the corridor;
- ! Specifies that, if a feasibility study of a moveable barrier system on interstate 70 is completed and demonstrates that such a system is viable and that life safety issues can be addressed, a transportation demand management contract shall establish, at a minimum, the goal of beginning the provision and operation of reversible highway lanes no later than January 1, 2011; and
- ! Further specifies that a transportation demand management contract may authorize the high-performance transportation enterprise to enter into single-fiscal year or multiple-fiscal year operating lease agreements or capital lease or lease-purchase agreements with a private contractor as needed to provide and operate the reversible highway lanes.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1.** 43-4-806, Colorado Revised Statutes, is amended
3 BY THE ADDITION OF A NEW SUBSECTION to read:
