fund. Contracts for health care professional loan repayments entered into by collegeinvest or the primary care office in the department of public health and environment (primary care office) under the prior name of the program are still valid obligations.

The bill specifies the manner in which the health services corps may make a lump sum payment on an eligible professional's education loans pursuant to a contract. The bill exempts the selection of health care professionals from the competitive bidding requirements of the procurement code. The bill repeals the \$35,000 per year limit on the amount of education loan repayment that a health professional may receive under the health services corps.

The bill requires the primary care office to report specified information to the governor and specified committees of the general assembly on or before December 1, 2011, and every other December 1 thereafter.

The bill makes conforming amendments due to the name changes.
