the taxpayer's total qualified investment in qualified property during an income tax year, as long as the investment is in property that is used solely and exclusively in an enterprise zone for at least one year. A taxpayer is allowed to claim the credit for the first \$5,000 of income tax liability, plus an amount equal to 50% of the taxpayer's tax liability in excess of \$5,000, to the extent permitted by the amount of the qualified investment. A taxpayer is allowed to carry forward the credit for 12 income tax years after the year in which the full amount of the credit was unused.

For the 2011, 2012, and 2013 income tax years, the bill limits the amount of the credit that a taxpayer may claim to \$250,000 and requires that a taxpayer defer claiming any amount of the credit allowed that exceeds \$250,000 to the 2014 income tax year. The bill allows a taxpayer that deferred claiming any credit in excess of \$250,000 to carry forward the credit for 12 income tax years after the year the credit was originally allowed, plus one additional year for each year that the taxpayer had to defer claiming the credit in excess of \$250,000.
