each coach with primary supervisory responsibility for a youth athletic activity to complete annual concussion recognition education. The education must include:

- ! Information on how to recognize the signs and symptoms of a concussion;
- ! The means of obtaining proper medical attention for a person suspected of having a concussion; and
- ! Information on the nature and risk of concussions.

If the coach suspects that a youth athlete has sustained a concussion, the bill requires the coach to immediately remove the youth athlete from a game, competition, or practice. Unless the signs or symptoms of a concussion can be readily explained by another condition, the youth athlete is not permitted to return to the game, competition, or practice unless the youth athlete has been evaluated by a health care provider and has received written clearance to return to play from the licensed health care provider.

The bill provides limited immunity to volunteer coaches and other individuals who assist as volunteers for youth athletic activities and to members of the board of directors or governing boards of a school district, private club, or recreation facility.

A youth athletic activity includes an organized athletic activity where the majority of the participants are 11 years of age or older and under 19 years of age.
