Updated Analysis

**Amendments/Appropriation Status**

The bill does not contain an appropriation clause. If a charter school requests that the Department of Education conduct an evaluation to determine whether a facility space is available, is of adequate size and quality, and is appropriate for the charter school's use, the charter school would be responsible to the Department for the cost of the evaluation. The Department would require an appropriation to allow it to spend moneys received from the charter school. Staff assumes that the Department would request such spending authority through the budget process (including supplemental appropriations).

**Bill Sponsor Amendments**

Staff is not aware of any sponsor amendments to be offered.

**Points to Consider**

None.
