"provides" funeral goods or services to the public, but some establishments believe that merely selling these goods and services is not "providing" them. The registration requirement is clarified to cover selling and offering to sell funeral goods and services and providing memorial services.

Currently, a funeral establishment must notify customers of subcontractors and suppliers. This requirement is narrowed to apply only when the subcontractor handles or cares for the dead human body.

The bill also clarifies that a cemetery or mausoleum may be used to dispose of unclaimed cremated remains and that there is no liability for records that are destroyed unless the custodian is negligent. A funeral establishment or crematory is authorized to dispose of remains abandoned for 3 years in an unrecoverable manner. The title protection standards are broadened to include a person who has obtained a mortuary science certificate from an accredited school. Finally, a cremationist is required to use a cremation chamber exclusively for human remains.
