- environment to allow the division to award grants to center operators to offer rehabilitative services at existing centers.
- ! **Sections 2 and 3** of the bill expand eligibility for participation in the state loan repayment program to health care providers who do not provide primary care services, practice in a for-profit setting, or are otherwise not currently eligible. These providers' eligibility is contingent upon their agreement to provide services in underserved areas of the state and upon a corresponding expansion of the federal government's national loan repayment program.
 - ! **Section 4** charges the center for improving value in health care (CIVHC), which was established in 2008 by an executive order of the governor, with studying and recommending improvements to the system for reimbursing health care providers who deliver care to recipients of the state's public medical assistance programs as well as to insured individuals.
 - ! **Section 5** requires the department of health care policy and financing to reimburse providers for medical care, services, or goods provided to medicaid recipients, regardless of the location of the service delivery, and to seek a waiver from the United States department of health and human services if necessary to implement this requirement.
 - ! **Sections 6 and 7** authorize the state and local governments to enter into agreements with health care providers to allow the providers to use available space in a building owned by the state or local government and located in a federally designated health professional shortage area for purposes of providing access to health care to persons residing in close proximity to the public building. As a condition of the agreement to use space in the public building, the health care provider must agree to accept medicaid patients at those sites.
 - ! **Section 8** extends governmental immunity to health care practitioners who provide care to patients, including medicaid patients, in available space in a public building located in a federally designated health professional shortage area pursuant to an agreement authorized by section 6 or 7 of the bill.

1 *Be it enacted by the General Assembly of the State of Colorado:*
