**Joint Budget Committee.** Current law requires over 90% of the allocations of tobacco litigation settlement moneys (settlement moneys) for tobacco programs to be made through payments of settlement moneys received in the same fiscal year in which they are allocated (accelerated payments). Because the state receives settlement moneys in the last quarter of each fiscal year, it uses general fund moneys as working capital to operate tobacco programs until it receives each year's settlement moneys. This de facto loan of general fund moneys creates a risk of loss to the general fund if the settlement moneys received in any given fiscal year are substantially lower than anticipated, which might occur if, for example, the state lost an ongoing legal dispute with tobacco manufacturers.

To reduce the risk of loss to the general fund, the bill annually reduces the amount of accelerated payments. The bill offsets the reduction by repealing the short-term innovative health program grant fund, which currently receives 6% of Tier 2 settlement program allocations, and requiring the additional tobacco litigation settlement cash fund moneys made available by the elimination of the grant fund to be used to supplement annual allocations of settlement moneys.
