also allowing it to apply to real property acquired by a nonprofit housing provider that the provider intends to sell to a low-income applicant for the purpose of constructing or rehabilitating housing for the low-income applicant's residential use.

In addition, the bill changes the criteria to qualify as a low-income applicant from an individual or family whose total median income is no greater than 60% of the area median income to an individual or family whose total median income is no greater than 80% of the area median income.

Waiver of filing deadline for annual report from owners of tax-exempt property: An owner of property that is exempt from property tax as determined by the property tax administrator is required to file an annual report to the state board of equalization (state board) regarding the tax-exempt property. Currently, the state board may waive the filing deadline for the annual report under certain circumstances. The bill allows the state board to determine a deadline for the property owner to file the report when granting the waiver and specifies that the waiver is invalid after the date established by the state board.

Effective date of property tax exemptions when a public official has made an error: The property tax administrator is currently authorized to grant a property tax exemption for certain types of property. The property tax administrator may grant the exemption back to January 1 of the year preceding the year in which the application was filed, but no earlier. The bill allows the state board to authorize the property tax administrator to make an exemption effective earlier than is currently allowed when the property has been added back to the tax roll as omitted property and would otherwise have met all criteria for exemption during the time that it was omitted.
