Currently, local governments and the state do not always impose sales or use tax on the same transactions. The bill requires the department of revenue, in consultation with representatives of a nonprofit organization that assists municipal officials, to make recommendations

on establishing a uniform sales and use tax base throughout the state. The representatives of a nonprofit organization that assists municipal officials must have experience in writing sales and use tax policy and must represent constituents of a local taxing jurisdiction. The uniform sales and use tax base must be established so that sales and use tax remittances under the uniform sales and use tax base will be revenue neutral for the state or any local taxing jurisdiction. In order to ensure revenue neutrality, the bill requires that every effort be made to determine a list of exemptions that are currently applied by the state and any local taxing jurisdiction. If the uniform sales and use tax base requires the state or a local taxing jurisdiction to start taxing an item that was previously exempted by the state or by a local taxing jurisdiction, the bill specifies that the tax rate for such item must be 0% for that jurisdiction. If the state or any local taxing jurisdiction starts taxing an item that was previously exempted at a rate that exceeds 0%, the state or local taxing jurisdiction must seek voter approval for such tax rate increase pursuant to section 20 of article X of the state constitution.

The bill specifies that the recommendations be included in a report to the general assembly that must be completed no later than December 31, 2013. The bill specifies that the members of the general assembly are then encouraged to consider the recommendations and introduce legislation in the 2014 legislative session to create a uniform sales and use tax base.
