future, with the following responsibilities:

- ! **Standing education interim committee:** Issues and policies related to preschool through postsecondary education, including basic adult education;
- ! **Standing health care and human services interim committee:** Issues and policies related to health, health care, human services, and insurance;
- ! **Standing judiciary and criminal justice interim committee:** Issues and policies related to children and domestic matters, civil law, corrections, youth corrections, criminal law and procedure, juvenile law, and probate and trusts;

- ! **Standing transportation interim committee:** Issues and policies related to transportation and motor vehicle and traffic regulation.

The bill repeals and reenacts the transportation legislation review committee so that it is instead the standing transportation interim committee. The bill also repeals the police officers' and firefighters' pension reform commission and places the commission's duties under the standing state and local government and military affairs interim committee instead.

Each executive branch department and the judicial department is assigned to a specific standing interim committee so that the legislature may give guidance and direction to such department in the development of its policies and programs, to provide legislative overview of and input regarding the implementation of its policies and programs, and to review its performance plans and performance evaluations.

A legislative member may submit a request in writing to the legislative council regarding an issue that he or she wishes a standing interim committee to add to its agenda. The legislative council is required to meet during the regular session each year to review and prioritize requests made by legislative members and, if approved, assign such

requests to the appropriate standing interim committee.

The standing interim committees will meet as determined by the executive committee of the legislative council so that each standing interim committee may perform its functions at least once during an interim between legislative sessions in a 3-year period, including the consideration of any approved policies to be studied as requested by legislative members, and any approved policies to be studied as requested by the joint budget committee, the legislative audit committee, or the office of state planning and budgeting.

The bill repeals the annual SMART hearings at the commencement of each legislative session. The bill also makes changes to the strategic planning requirements found in the 2010 act so that departments are now required to prepare performance plans and performance evaluations that the joint budget committee may use to prioritize departments' requests for new funding that are expressly intended to enhance productivity, improve efficiency, reduce costs, and eliminate waste in the processes and operations that deliver goods and services to taxpayers and customers of state government.

18 DEPARTMENTS' PROGRESS IN ACHIEVING PERFORMANCE GOALS WILL LEAD
19 TO IMPROVEMENTS IN SERVICES RENDERED AND INCREASED EFFICIENCY IN
